Dear **hack@MACS** Sponsor,

Unihack is a group of Georgian* students from different schools that organized the very first college hackathon ever in Georgia last December which was a **huge success**. Our goal was to make a difference and we did it. We gathered 200 hundred hackers in 50 teams who did an amazing job and built the most epic hacks and projects. After that, we took our time to think about what we could do next and now we are back. Stronger than ever. Bigger than any college hackathon on this part of the planet. We are passionate about what we do and we believe that we are the ones changing the world and making it a better place. This time, we are excited and are working hard to throw the biggest college hackathon in Europe - **hack@MACS** which will take place in the top school in the country - the School of Mathematics and Computer Science (MACS) at [Free University](#) of Tbilisi, Georgia. Around 500 hackers from all over the country will gather on March 14-15-16 to spend 48 hours straight building anything they can dream of.

Sponsoring **hack@MACS** is a great way to have access to top talent from all over the country who love to hack and build. By sponsoring you can:

- Establish personal relationship with top hackers
- Establish personal relationship with entrepreneurs and top representatives of IT Industry in Georgia
- Get early access to participant resumes/githubs/linkedins
- and of course, **make a difference**.

Attached is a sponsorship tier list with information about how you can support **hack@MACS**. If you have any questions, recommendations or want to work out something custom you can contact us anytime at team@unihack.ge

Planning the biggest hackathon on the continent is a large undertaking. But we believe that we can do this together. With your backing we can inspire the next generation of engineers and spawn revolutionary ideas. We look forward to working with you to make hack@MACS a reality and change the world!
